

VINTNERS LOGISTICS LLC

It is with great pride that we are doing all we can to keep America going. With commodities in high demand and low supply, we heard the call to serve our community and our country in this challenging time. It is only with the support and leadership of our Vintners Logistics family that we can do this. Our team has been working tirelessly to help support you, our customers and our community. We have been working hard to accommodate not only our winery partners, but we have reached out to other industries as well. Here is how we are serving:

- Delivering baking supplies to local bakeries
- Transporting produce and dairy bins to restock your local grocery store
- Delivering produce to fulfilment warehouses
- Transporting goods to make sure they get to our brave men and women working on the front lines
- Delivering sanitizers to Washington State departments and US troops
- Delivering much-needed packaging supplies for the food industry

We are here to serve
